This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

STATE TAXES LEVIED.

The 29th General Assembly—by Act approved April 10th, 1875,

in force July 1st, 1875—authorized to be raised by taxation, "For General State purposes, to be designated 'Revenue Fund,' one million eight hundred thousand dollars, upon the assessed value of property for the year 1875, and one million five hundred thousand dollars, annually thereafter; and for State School purposes, one million dollars annually."

In accordance with the provisions of said Act, the Governor and Auditor computed the rates per cent. required to produce the amounts authorized to be raised for State purposes.

On the equalized assessment of taxable property for the year 1875, they found these rates to be: For Revenue fund, nineteen cents on each one hundred dollars, and for State School fund eleven cents on each one hundred dollars; making the total State Tax for 1875, thirty cents on each one hundred dollars, or three mills on each dollar.

On the equalized assessment of taxable property for the year 1876, the following rates were computed: For Revenue purposes sixteen cents and eight mills on each one hundred dollars, and for State School purposes, eleven cents and two mills on each one hundred dollars; making the total State Tax for 1876, twenty-eight cents on each one hundred dollars, or two and eight-tenths mills on each dollar.
